It is a requirement that GCA be notified of any material change to the information contained within this document, or to the Tool itself, while the Tool forms part of any GCA Cybersecurity Toolkit.

GCA Internal Review of Application:

What specific benefits does this Tool offer (and over existing Tools)?

Additional features/licences, etc.

Reviewed By/Date

Is there anything in the Terms and Conditions that raises specific concerns? If so what?

Additional features/licences, etc.

Reviewed By/Date

Is the ease of use and level of proposed support acceptable?

Additional features/licences, etc.

Reviewed By/Date

Is the proposal to accept this Tool within the Toolkit, and if so will it replace an existing (which one) Tool, or be an additional one? If it is not to be included specifically, why (and are there any changes that could be done which would enable inclusion)?
